

Plugin Bundles For Device *ManageR*™

Easy-To-Use Plugins Enhance The Capabilities Of AVTECH's Device ManageR

Plugin - Windows Bundle (Shutdown, Reboot, Log Off & Script)

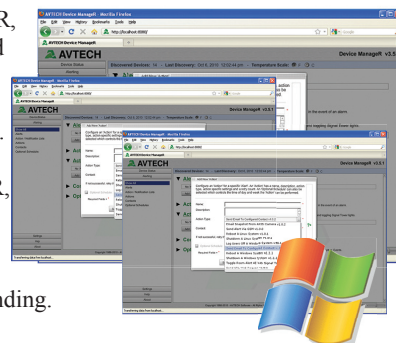

ADM-WINB-PAS

NEW

\$225

- **Shutdown Windows Systems Remotely Across The Network.** When used with Device ManageR, this plugin will perform a forced power-down of the target system. Use it to shutdown an unlimited number of Windows systems across the network... individually, in groups, simultaneously, sequentially or according to a defined schedule. Shutdown systems without any user interaction both automatically and immediately to save equipment from damage due to environment extremes.
- **Reboot Windows Systems Remotely Across The Network.** When used with Device ManageR, this plugin will perform a forced reboot of the target system. Use it to reboot an unlimited number of Windows systems across the network... individually, in groups, simultaneously, sequentially or according to a defined schedule. Monitoring a system or device via a Ping Object? Use the 'Reboot Action' to restore the service being monitored if/when it stops responding.
- **Log Off Windows Systems Remotely Across The Network.** When used with Device ManageR, this plugin will perform a forced log off of the target system. Use it to log off an unlimited number of Windows systems across the network... individually, in groups, simultaneously, sequentially or according to a defined schedule. Issue log off responses for security, to manage power consumption or more from anywhere in the world by using Device ManageR's easy-to-use web browser interface.
- **Execute Windows Commands, Batch Files Or VBScripts.** When used with Device ManageR, this plugin will allow users to execute Windows commands, batch files or VBScripts when alerts are detected. Each instance of the Windows Scripting action will be able to perform one method at a time, however there are no limits on the number of instances that can be created.
- **Perform Windows Audible Actions.** When used with Device ManageR, this plugin will allow users to speak alert text or play a sound file over the Device ManageR host system's sound card. Use this plugin to notify managers and staff immediately when events occur or issues are resolved.

Plugin - Dial Out Bundle (GSM, Text & Voice)

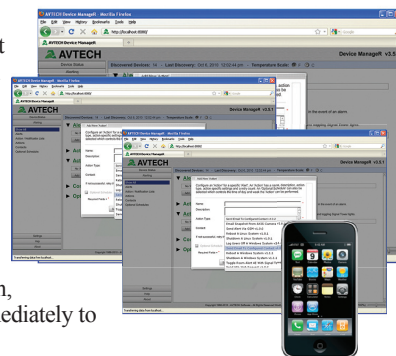

ADM-DOB-PAS

NEW

\$225

- **Send Text Messages To Mobile Devices Via A GSM Modem Or Phone.** This plugin action will use a GSM modem or phone connected to the Device ManageR host system to send a text message to configured contacts when issues or events occur across the network. Use it to send text messages to an unlimited number of contacts... individually, in groups, simultaneously, sequentially or according to a defined schedule. Send notifications both automatically and immediately to save equipment from environment extremes.
- **Send Text Messages To Mobile Devices Through A Modem Via TAP Service, Or Dial A Phone Directly To Play Dial Tones.** This plugin can be used to call/text an unlimited number of phones... individually, in groups, simultaneously, sequentially or according to a defined schedule. Receiving phones can set a customized description or name for the dial out line for easy installation, such as "Device ManageR" or "Data Center Alert". Send notifications both automatically and immediately to save equipment from environment extremes.
- **Dial A Phone Directly To Play Voice Messages.** This plugin can be used to dial a phone directly and play voice messages to an unlimited number of phones... individually, in groups, simultaneously, sequentially or according to a defined schedule. Send notifications both automatically and immediately to save equipment from environment extremes.

Plugin - Report Generator

ADM-REP-RAS

HOT

NEW

\$125

- **Automatically Generate And Email Scheduled Status Reports.** When used with Device ManageR, this plugin allows users to schedule and send emails to configured contacts with status updates and advanced statistics on discovered devices (Room Alert & TemPageR), alerts detected by Device ManageR and more. View and print status and/or statistics for selected environmental sensors within computer rooms, data centers and other facilities. Keywords are available that allow users to insert real-time values for the number of alerts in progress, number of alerts in a designated time period, number of devices discovered, current sensor readings and much more. An unlimited number of reports can be created, allowing users the flexibility to create different reports for different contacts, or to generate reports according to different schedules (i.e. periodic, daily, weekly or monthly report) or facilities.

Plugin Bundles For Device *ManageR*™

Easy-To-Use Plugins Enhance The Capabilities Of AVTECH's Device Manager

Plugin - Unix/Linux Bundle (Shutdown, Reboot & Commands)

ADM-UNLB-PAS

NEW

\$225

- **Shutdown Unix/Linux Systems Remotely Across The Network.** When used with Device ManagerR, this plugin will perform a forced power-down of the target system. Use it to shutdown an unlimited number of Unix/Linux systems across the network... individually, in groups, simultaneously, sequentially or according to a defined schedule. Shutdown systems without any user interaction both automatically and immediately to save equipment from damage due to environment extremes.

- **Reboot Unix/Linux Systems Remotely Across The Network.** When used with Device ManagerR, this plugin will perform a forced reboot of the target system. Use it to reboot an unlimited number of Unix/Linux systems across the network... individually, in groups, simultaneously, sequentially or according to a defined schedule. Monitoring a system or device via a Ping Object? Use the 'Reboot Action' to restore the service being monitored if/when it stops responding.

- **Execute Unix/Linux Commands.** When used with Device ManagerR, this plugin will allow users to execute Unix/Linux commands when alerts are detected. This action will be able to perform the configured command on the target system by connecting directly via Telnet.

Plugin - Super Bundle (Windows, Unix/Linux, Dial Out, Report)

ADM-SUPB-PAS

BEST VALUE

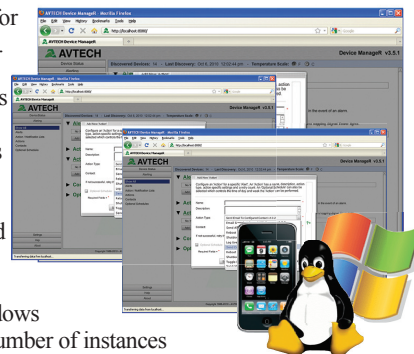

\$475

- **Plugin - Report Generator.** With this plugin, users can automatically generate and email reports for some or all environmental conditions within their computer rooms, data centers and other facilities. Keywords are available that allow users to insert values for the number of alerts in progress, number of alerts in a designated time period, number of devices discovered, current sensor readings and much more. An unlimited number of reports can be created, allowing users the flexibility to create different reports for different contacts, or to generate reports according to different schedules (i.e. periodic, daily, weekly or monthly report).

- **Plugin - Windows Bundle (Shutdown, Reboot, Log Off, Script & Audible Action).** When used with Device ManagerR this plugin package allows users to shutdown, log off or reboot Windows systems remotely across the network and/or perform Windows Scripting such as the execution of Windows commands, batch files or VBScripts, when alerts are detected. Each instance of the Windows Scripting action will be able to perform one method at a time, however there are no limits on the number of instances that can be created. Users can also use audible actions to speak alert text or play sound files over the Device ManagerR host systems sound card. Perform these actions for an unlimited number of Windows systems across the network... individually, in groups, simultaneously, sequentially or according to a defined schedule.

- **Plugin - Unix/Linux Bundle (Shutdown, Reboot & Commands).** When used with Device ManagerR this plugin package will allow users to shutdown and/or reboot Unix/Linux systems and execute Unix/Linux commands remotely across the network. When an alert is detected, this action will perform a forced power-down or reboot of the target system by connecting directly to the system via Telnet. Shutdown, reboot or set commands for an unlimited number of Unix/Linux systems across the network... individually, in groups, simultaneously, sequentially or according to a defined schedule.

- **Plugin - Dial Out Bundle (GSM, Text & Voice).** When used with Device ManagerR this plugin package will allow users to send out text messages via a GSM modem, use a TAP service to send out text messages, dial a phone directly and play dial tones and/or to dial a phone directly and play voice messages remotely across the network. Send messages to an unlimited number of contacts... individually, in groups, simultaneously, sequentially or according to a defined schedule.

Plugins For AVTECH's Device ManagerR Application Enhance The Capabilities, Ease-Of-Use And Overall User Experience While Working With Room Alert And TempPager Monitors. AVTECH Will Release Additional Plugins On A Regular Basis To Monitor Additional Third Party Products.
